

## Live Release Rates

2016, 2011, 2006

There are three different formulas the ASPCA uses to tell us the numbers of live release from the shelter.

- 1.) Asilomar Live Release Rate: Tells us what percentage of animals with an outcome left the facility with a live outcome (adoption, return to owner, etc.).

2016	2011	2006
80%	41%	31%

- 2.) ASPCA Live Release Rate: Tells us the live outcomes as a percentage of the animals admitted.

2016	2011	2006
72%	39%	30%

- 3.) The Save Rate: Tells us what percentage of the animals admitted were NOT euthanized.

2016	2011	2006
74%	43%	31%

As you can see by the numbers we are trending in the right direction and the live release numbers do not reflect 50% euthanasia. In fact the numbers are much better than 50%.
